

Contracts update

11/9/2011

In response to recent issues some MALiA members from state institutions had encountered, Fran Finch, from the Division of Purchase and Supply, has posted a notice on the eVA webpage that the MALiA contracts are an approved cooperative. The message indicates that users go to the MALiA web site but the address is not listed. Ms. Finch did this out of concern that others, who not members, would attempt to use our contracts. This should resolve any non-compliance issues regarding MALiA contracts not being posted on the eVA webpage. All state institutions are once again eligible to participate in our contracts.
