

Contracts update

12/2/2011

UPDATE TO EVA WEBPAGE

Any non-compliance issues regarding MALiA contracts not being posted on the eVA webpage have been resolved. All state institutions are once again eligible to participate in MALiA's contracts.

LINKS TO SERIALS AND SUPPLIES RFPs

We did have an issue with the links being broken to the RFPs for the serials and the subscriptions contracts but that is now resolved. To access either of the RFPs, go to the contracts tab, select either serials or supplies and the RFP link will be there on the webpage.

UPDATES TO CONTRACTED VENDOR INFORMATION

Contact information was updated for Advanced Educational Products and W.T. Cox. It has also been noted that W.T. Cox is a SWAM vendor. The updated information is available on the vendors' page found under the contracts section of the webpage.

NON-CONTRACTED VENDORS

Library Ideas LLC has contacted me with information about the services they provide. They primarily serve public libraries but do have some material for academic or school libraries. Library Ideas offer Freading eBooks, Freegal Music and Rocket Language. This is digital material offered on a per check-out fee. Their contact and service information can be found on our webpage under Non-Contracted vendors.
